

Visão geral do progresso na implementação das resoluções da ACC16

Introdução

1. A ACC16 aprovou 43 resoluções, a maioria das quais com diversas cláusulas e a demanda por trabalhos e respostas específicos de dentro da Comunhão. Muitas das resoluções tinham horizontes de tempo de implementação de três, seis ou nove anos.
2. Em anexo, oferecemos um cronograma resumido do progresso na implementação das resoluções da ACC16. O formato do relatório com indicadores gráficos tipo semáforo (com uso das cores verde, vermelha e amarela para indicar níveis de progresso) foi introduzido em 2017 para relatar progressos anualmente ao Comitê Permanente. O cronograma inclui um sistema de semáforos para registrar ações amplamente realizadas ou facilitadas pela equipe do ACO, mas também uma coluna que marca por asterisco onde o progresso precisa incluir evidências das ações tomadas por toda a Comunhão. Estas normalmente se referem à implementação de resoluções dentro das Províncias.

Relatórios provinciais

3. Durante o ano de 2018, as províncias foram contactadas para que pudessem relatar seu nível de progresso na implementação das resoluções que envolviam a tomada de ações. Em janeiro de 2018, os secretários provinciais receberam o seguinte questionamento (com um lembrete enviado em abril de 2018):
 - Os secretários provinciais já viram a lista de Resoluções da ACC16 antes? Se sim, como foram informados sobre elas?
 - Com relação às resoluções que contemplam a tomada de ações, os secretários provinciais poderiam identificar quais resoluções suas províncias haviam implementado com ações ou adotado formalmente? E, caso uma província tenha tomado ações para a implementação das Resoluções, o secretário provincial poderia descrever quaisquer resultados e impactos atingidos no seu contexto?
4. Informações sobre a implementação foram recebidas de oito das 39 províncias: Canadá, Congo, Inglaterra, Oceano Índico, Nova Zelândia, Escócia, Uganda e País de Gales.
5. Resta claro que a elaboração de relatórios sobre o progresso na implementação de resoluções dentro das províncias permanece afetada por um problema significativo.
